# FIREMEN ATEND

Make Their Wants Known and Village Board Agrees With Them

At a recess meeting of the Vilinge Board last Thursday evening the fire men put in an appearance according to previous arrangement, and in no uncartain terms made their wents known. First they talked of the matter of a per manent location, but as the time is so short before they will have to vecate their present quarters, It is necessary te first find a temporary location and then go about the business of providing a permanent one. This matter was disposed of by appointing a committee of four, B. F. Naber and J. H. McVey representing the Village Board, Wm. Christian and A. Rosenfeldt rspresenting the firemen, whese business it will be to look into the matter and report at a future meeting.

The firemen then objected to the dis possi of the gasoline engine and de manded that it should be rapalred, and be kept in such a condition that it can, at any time, bo relied upon to furnish power for pumping should the moter on the seventeenth day of November unacquainted with the beach and did relative. for any reasen fall us. The board listenad to the objection, then made and saconded a metion that the engine be repsired, and appointed A. Rosenfeldt as a committee of one to attend to it at

Next the firemen expressed their dissatisfaction with the present marsball. They wanted a change and they were rather emphatic about it teo. This storm had been brewing for some little time and consequently there was lots to be said, but the Board realizing that the firemen were justified in their demands, appointed a committee of two. C. A. Powles and Elmar Brook to look up some one to fill the job.

During the meeting a communication from the Rivers and Harbors commission was read summoning the beard to appear before the commission in Chicago on Wednesday, Sept. 6, to answer to the charge of poluting requoit creek. This summons, was based upon a cemplaint turned in by D. A. Williams. upon whose land the worst condition of the creek exists and H. Bock, whose home is close along the bank of the same stream. Again, we must build up our merchant marine. it will not ald to put the Government into competition with private owners. That, it agems to me, is a counsel of folly. A surer way of dastroying the promise of our foreign trade could hardly be 40vised. It has well been asked-Does the Government intends to operate at a profit or at a loss? Mrs. Pillig, my liousekeeper, arrives with her son Peter and his dog Buster.

John Upton la touched by the wondrous spell of spring flowers and birds, the gurgle of the little stream, and of Stella Goodwin. Ho doesn't know whether or not ho loves her. Doubts assall him mightly-the freedom of bachelorhood seems good to him, but so does the girl. How he takes a quiet walk with her and how he comes almost to a decision is told in this installment-in a manner specially recommended to sweethearts.

My mlad was not on the task. Over nod over I was asking the question, "Do I love her? What permanence is there in a spring passion, amid gardens and thrush songs; for a girl who caresses the sympathies by her anive delight in the novelty of country life? How much of my feeling for her is passion, and how much is sympathy, even plty?" .

Over and over I turned these questions, while my hands worked me- I see at last why I shouldn't have asked chanically. And over and over, too, I will be honest and admit, the selfish incrustations of bachelor habits imposed their opposition to the thought of union. I had bought the farm to be my own lord and master; hero I was at work, to create masterpleces of literature, to plan gardens, to play golf, to smoke all over the house, to toll all night and sleep all day if I so desired, to wear soft shirts and never dress for dinner, to mnintale my own habits, my own individuality, undisturbed. What had been so pleasant, so tinglingly pleasant, for a day, a week-the presence of the girl in the garden, in the house, the custle of her skirt, the sound of her flagers on the keys-would it be always pleasant? What if one wished to escape from it, and there were no escape? Passions pall; life, work, ambitions, the need of solitude for crention, the individual soul, go on.

"All of which means," I thought, laying down my brush seythe and gazing into the brook, "that I am not sure of myself. And If I am not sure of myself, do I really love her? And if I am not sure of that, I must walt." That resolution, the first definite

things'my mind had fald hold on, came to me as the sun was sinking toward the west. I went to the house, changed my clothes, and bastened up the road to meet her, curlously enger for a man in doubt.

She was coming out of the door as 1 crossed the bit of lawn, dressed not in the working clothes which she had worn on our gardening days, but all in white, with a lavender ribbon at her thront. She smiled at ms brightly and

I had not quito expected so much lightness of heart from her, and I was a little plaued, perhaps, as I answered, "You don't seem very sorry that you sides, I'm going away tomorrow, and are seeing it for the last time." She smiled into my face. "All plons-

ant things have to end," sho said, "so why be glum about It?". "Do they have to end?" said I.

Senator Penrose Insisted that Philadelphia bo included and this was done. Then Senator Swanson expressed the desire to see the names of Camden, N. J., and Wilmington, Del. in the list and Senator Sheppard requested that six cilles in his state be included. Senator Vardaman obtained

the admission of two cities in Mississippi. The end came when Scantor Overman requested the admission of Wilmington, N. C., on the grounds that "it was the scene of the greatest battle in the Civil war." Senator William obtained the floor and said: "I think if this is going on indefinitely, we had better take a map and look around the coast line and put in all the places and take the towns in Arizona, New Mexico and

CHAPTER XI.

A Pagan Thrush. All that next June day I worked in my gorden, in a dream, my hands performing their tasks mechanically. I ran the wheel hee between the rows of vases. "I ought to get you some fresh newly planted raspherries and black- ones," she said. berries, to much the soll, without consciousness of the future fruit which

was supposed to delight me. My mind was not on the task. Over and over I was asking the question, "Do I love her? What permanence is there in a spring passion, amid gardens and thrush songs, for a girl who enresses the sympathics by her naive delight in the novelty of country life? How much of my feeling for her is passion, and how much is sympathy,

even plty?" Over and over I turned these questions, while my hands worked mechanically. And over and over, too, I will be bonest and admit, the selfish incrustations of bachelor babits imposed their opposition to the thought of union. I had bought the farm to bo my own lord and master; here I was at work, to create masterpleces of literature, to plan gordens, to play gelf. to smoke all over the house, to toll all night and sleep all day if I se desired, to wear soft shirts and never dress for dinner, to maintain my own habits, my own individuality, undisturbed. What had been so pleasant, so tinglingly. pleasant, for a day, a week-the presenco of the girl in the garden, in the house, the rustle of her skirt, the sound of her fingers on the keys-would it be always pleasant? What If one wished to escape from it, and there were no escape? Passions pall; life, work, ambitions, the need of solitude for creation, the individual soul, go on.

"All of which means," I thought, laying down my brush seythe and gazing into the brook, "that I am not sure of myself. And if I am not sure of myself, do I really love her? And if I am not sure of that, I must walt."

That resolution, the arst deanle thiogs my mind had laid bold on, camo to me as the sun was slaking toward the west. I went to the house, changed my clothes, and bastened up the road to meet her, curiously eager for a man

She was coming out of the door as I crossed the bit of lawn, dressed not in the working clothes which she had worn on our gardening days, but all in white, with a lavender ribbon at her thront. She smiled at me brightly and

I had not quite expected so much lightness of heart from her, and I was a little plqued, perhaps, as I answered, "You don't seem very sorry that you are seeing it for the lust time."

She smiled into my face. "All pleasant things have to end," she said, "so why be glum about it?".

New York.—Scores of frightened pedestrians in Convent avenue witnessed a speciacle that rivaled the famous equestrian feats of the old ldppodrome.

A policeman trying to stop a runaway team of horses drawing a largo laundry wagon walked out on tho wagen tougue while the animals were; running at a furious pace. Failing, then to halt them, he tripped one of the horses, and with them fell in a mass just before the team might have run into a group of children playing in the street. The policeman suffered many broken bones, but he will be recommended for departmental recognition.

He is Denis J. Rodgers, attached to ho West 125th street station. Ilodgers, who welghs mere than two hundred pounds and is tall, was in the pelghborhood of Convent avenue and 136th street when he saw the team, frightened by an automobile, dash up the street. Rodgers caught the renr of the wagen. Making his way to the driver's sent, he found that the reins were on the ground. By that time the team was approaching 130th street, and men, women and children on the sidewalk were running to safety and screnming to those farther up tho street to flee.

The reports coming to hand every day from all branches of industry in Canada speak highly of the constructive ability of that country.

Mr. Robins, in an address before the Bondmen's Club of Chlengo, expressed the opinion of a far-thinking mind and the review of an experience of the last of his numerous trips through the Canadlan West. He is quoted as saying:

"Agricultural Canada was never so prosperous, and immigration of agrieultural population both during and after the war seems a logical expectation, finding support in nu increasing laumigration at present from the United States, in spite of numerous ennards spread brondeast throughout the United States to discourage emigration to Canada. # Each Seacoast Senator Wanted Harbors Included

ASHINGTON.—The debate in the senate on the naval appropriation bill produced some peculiar situations. One, especially, occurred when the clause was taken up which directs and authorizes the secretary of the navy to report to congress by December 4,

specific plans for the cost of improvement of the harbors which will best provide adequate facilities for operations of the fleets at places unined. About 10 on the Atlantic, Guif and Pacific coasts were mentioned.

Senator Penrose Insisted that Philadelphia bo included and this was done. Then Senator Swanson expressed the desire to see the names of Camden, N. J., and Wilmington, Del., in the list and Senator Sheppard re-

quested that six cities in his state be included. Senator Vardaman obtained the admission of two cities in Mississippl.

The end came when Senator Overman requested the admission of Wilmington, N. C., on the grounds that "It was the scene of the greatest buttle in the Civil war." Senator William obtained the floor and said: "I think if this is going on ladefinitely we had better take a map and look around the coast line and put in all the places and take the towns in Arizona, New Mexico and Texas on the Rio Grande and put them all la."

In the end it was decided to amend the clause to call for "plans for improvements in harbors and channels, which, in the opinion of the commission. will best provide adequate facilities,"

MEMBERS of congress and government officials who were startled by the report that the Institute for Government Research, backed by John D. Rockefeller, was preparing to make a sweeping lavestigation of all departments of the government suppressed

their indignation when they discovered that the purpose for which the insti-

One of the charter members of the regulization said that Mr. Rockefeller had nothing to do with it at the outset, at least, and expressed doubt that he had contributed any funds to carry on the work for which it was designed. # Capital Eats 600 Tons of Ice Cream Monthly

F WASHINGTON could get its ice cream in no other way save by importing It from Germany, a submarine of the Doutschland class would be required every month for the transport of this favorite confection. If one failed to

arrive every month, Washington would have to go lee-creamless. In round figures 200,000 gallons of lee crenm pro consumed every month in the District of Columbia, This means that 1,200,000 pounds, or 000 tons, of cream, is caten.

Think of how long it would take you to cat a dish! If you are an average person, it takes about ten minutes. To ent a gallon you might take two hours.

But If you set out to cat all the lee cream that Washington consumes, and supposing that you could ent at the ice cream fountain steadily day after day without getting enough cream or taking any sleep. It would take you 1,000,000 days, or 273 years, two months and some days,

Log would have to car 24,000,000 dishes of cream. If all this cream was put in Ice cream cones, each averaging six inches in height, one month's supply would reach 50,000 miles into the air; it would be able to girdle the world twice, and to get une fifth of the way from the

earth to the moon. Two classes of concerns, la addition to the private consumption at liome, contribute to the enormous monthly consumption of 1,200,000 pounds, The wholesalers make about 175,000 gallons a mouth.

Retallers make about 27,000 or 28,000 gallons.

Private homes freeze fully 2,000 gallons a month, it is estimated.

True Republicanism Integrity & Efficiency Faithful Public Service Honest Dealing

Help to lashro Republican Success by Nomicating this Republican of State-Wide Reputation in Republican Primaries, Sept. 13, '16

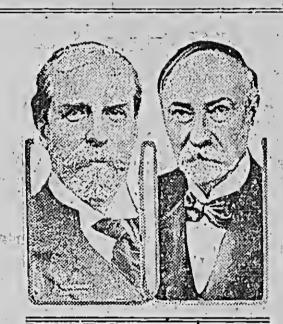

Over at the County seat, the fight for State's Attorney has narrowed down to the point of personalities. If one is to believe all one hears, the candidates and their most ardent supporters are overlooking the real issue and are resorting to mud-slinging. Now out here in the western part of the county, the personal affairs are let alone, mud-slinging isn't indulged in, but the rank and file of the voters are working quietly, steadily and unceasingly for Ralph J. Dady.

Out here in Antioch we don't care anything about what Dady's opponents may have done in the past. What we are looking at, is what Ralph J. Dady has done. The cool capable manner in which he has handled the affairs of his office, the efficiency with which he has served the public is what we are counting.

Twice before Antioch has handed Mr. Dady a good substantial majority, and it will do so again this year.

Albert J. Olson of Woodstock, candidate for State Senator, is growing stronger and stronger every day. Wherever he has spoken in the present political campaign he has left a strong and favorable impression. Twice he has been Lake County's choice, and his records shows that we will make no mistake if we again place our confidence in him and trust him to represent our interests at Springfield.

A vote for H. B. Eger of Libertyville is a vote for Lake county's only Republican candidate for the Legislature. He is one of Lake county's best known citizens, having been Supervisor from Libertyville for eight years and chairman of the board for one torm. He is a thorough business man, in favor of economy in government and an advocate of good roads.

# Primaries

Forty-five years ago honest men rose in their might and cleaned the Senate. Reputable Senators, swear Resolutions were put on the Journals of the Senate last session that were never passed—tactics of the gray wolf days of the Chicago Council, from which Olson graduated, to be the Senator for the 8th District.

Ten janitors and one Superintendent of Ventilation were on the Senate pay rolls in 1915. Only two worked and \$2,700 was grafted. Twenty-four Pages and twelve Bill Distributors did the errands of fifty one Senators, in a room 100x200 feet. One of these boys went to the La Salle Hotel in Chicago and ordered a banquet for his friends with wine and cigars—and the bill, almost \$150, was paid by the State. HE KNEW TOO MUCH.

# Senate Expense Up 57%

The Law fixes the number of Senate helpers at sixty, and one

ployed. In 1911 the Senate payroll was \$29,190; in 1915 it was \$57,864.

A janitor for the President of the Senate drew \$2,265 from January 1st to June 30th, 1915.

The Visiting Committees cost \$1,807.65 in 1913, and \$11,094.96 in 1915. The Law allows 7 members; 51 persons were taken, feted and dined on one trip of 8½ days that cost \$5,273.00.

The bill in the Fergus suit, among many charges said: "A trick and device was planned and schemed in the Senate whereby the treasury of the State was to be depleted of \$10,000 by dummies for certain pretended services." Destroying the government of and \$10,000 was taken from the Huerta, we left Mexico to the ravages treasury illegally.

Twenty-six Standing Committees in the Senate gave excuse for traveling expenses that would bankrupt a business house and

make a starved old wolf skulk. Note the following bills: Voucher No. 73522. Springfield, Ill., June 15th, 1915 State of Illinois; Senate Labor Sub Committee to Albert J. Olson, Dr. Voucher No. 73522. Expenses at three meetings La Salle Hotel, paid, .... \$60.00.

Voucher No. 73523. Springfield, Ill., June 15th, 1915 State of Illinois; Senate Labor Sub-Committee to Albert J. Olson, Dr. Expenses at three meetings La Salle Hotel, paid, . . . . \$50.00

Voucher No. 73529. Springfield, Ill., June, 15th, 1915 State of Illinois, Senate Labor Sub-Committee to Albert J. Olson, Dr. Expenses at two meetings La Salle Hotel, paid. . . . . \$40.00

The "pickings" of private relief bills are growing. Two in 1911 took \$8,600; twenty-four in 1915 took \$122,865.39. Senator Olson had one, but it was so bad that the Governor vetoed it:

The "Roving" Committees are another chance; fourteen were started the last session with 114 members to cost \$200,000, and Senator Olson had one to determine the physiological effect of corn as food on the human system. Such a travesty would make a dog laugh.

These are only a few of the many items of shame—and it is YOUR taxes which pay the bills.

The record does not contain one single protest from Senator Olson against this waste and all he said during the last session—six months—can be read in twenty minutes.

Twelve years ago I was attacked by a powerful corporation who were determined I should not manufacture agricultural implements. I fought them and they dismissed their suits. I won and will refight that fight anytime. Now, Senator Olson is buying space to bring up these old matters again, but he cannot dodge his record for waste and inefficiency and I will drive it here to be a powerful corporation who were determined I should not manufacture agricultural implements. I won and will refight that fight anytime. and inefficiency and I will drive it home to him next week.

# Hughes Points the Way

The speech of the Republican candidnte for President was a keynote speech, indeed. Not one person in the grent midlence at the Carneglo Hall meeting was in doubt for one moment us to just what he meant by everything he said.

His nullress was comprehensive, log-

lcal, cleur and all sufficient for the occusion. There can be no dispute ns to this. Plainly Mr. Dughes is a man whn "knows what he wants when he wants it," and it is the opinion of political authorities who heard him and who have since rend his remarks that he knows also, how to get it. It was incumbent upon the Republean enudldate to confine the scope of his remarks to the limitations of the occasion, but his crushing analysis of the shortcomings of the present administration of the government is merely an enruest of what the tone and the contents of his speeches will be when he gets on the stump.

At Curnegle Hall Mr. Hughes adverted to every general question that is apt to he g serious issue in the enupaign and in language that will be absolutely clear to every man or woman able to read he stated his opinions, his convictions and his purposes. On the stunip he will argue those points in detail. As an orntor he is eloquent; his personality attractive and his marshalling of facts so collesive that he holds his audience to the end. He makes it easy for them to follow him and his points. re not lost.

There was nothing equivocal, nothng upologetic in the Republican candidute's speech of neceptance. He called a spade a spade, and the ununtmous opinion of those who heard idm. was that he shot to the center and rang the bell. The Republican campalgn is now open, and those who will speak and write and work for the success of the Republican ticket. can wish for no more adequate campaign document, no more satisfactory statement of issues than are found in the candidate's salutatory.

# HAM LEWIS ARRAIGNS WILSON'S POLICIES

ILLINOIS SENATOR SAYS AMERI-CA HAS NOT ONE FRIEND IN ALL NATIONS OF THE WORLD.

Sepator James Hamilton Lewis of Illinois, Democrat, made as severe an arralgoment of the Wilson administration and its foreign policies, in a recent speech in the senute, as has been heard in the upper branch of congress during the present session, From the Congressional Record of July 17, this paragraph from Senator Lewis' speech is taken;

"Sir, one truth must be expressed, and to my eminent friend, the able senator from Idaho (Mr. Borah), I voice it, as'l do here in the presence of the senate, why not tell America the truth-that America has not one friend in all the nations of the world? If tomorrow she should become involved in conflict, there is not one nation on the earth from which che could feel the right nor could enjoy the hope of ald and assistance. She stands alone from every point of view, an Island now between seas and a people surrounded by their opponents."

Senator Lewis' arraignment of the Wilson foreign policies and what they have cost this nation is in line with that recently made by Secretary of State Lunsing, touching the outrages upon American eltizens and American rights and laterests by the Mextean government, which has been commented upon generally by the press of this country as the most telling criticism made against the Mexican policy of the administration by anyhody, from

# RODNEY B. SWIFT

# Republican Candidate For State Senator

A Farmer and Business Man--Vote For Him Next Wednesday

# **OLSON'S RECORD**

The early political career of the present Senator. was limited to Chicago. As the pawn of the Market street gang, he was elected to several terms in the Chicago city council, despite the increasing protest of the Municipal Voters League of that city.

Being finally repudiated in his own ward, he moved to Woodstock with sufficient money to start in business in that city.

Political office has he always sought. Lavish expenditures of money for that purpose will always gain supporters of a certain class.

For eight years he has been the Senator from this district. At each election he has been unable to point to his own record, but by vilification and abuse has sought to eliminate his opponent at the start.

He is pursuing these tactics now.

The last session of the senate has been a disgrace to Illinois. Sworn evidence, taken on the hearing of the Fergus bill, has disclosed a condition of affairs which should not be tolerated by good citizens.

The senate chamber is 100x200 feet; in it are seated 150 senators.

Twelve janitors were employed to run errands between desk and desk. These pages are the sons of political henchmen, and they draw the salaries of high priced executives.

A man was armed with a long pole and a longer salary, and made superintendent of ventilation.

Twelve men were hired for the sole and only purpose of depositing each morning on the desks of the senators the bills for the day, a ten minute job for one boy, and they had 24.

The private janitor of Mr. O'Hara, the lieutenant governor, received \$265 for six months work. The law allows the senate 60 helpers, 120 were employed Two janitors, who actually performed services, never saw the others at their fictitious tasks.

The law provides a senator shall receive \$2000, 2 cents a mile for one trip each way, and \$50 for incidental expenses. The constitution says no further allowance shall be made. To increase this allowance, a mileage bill was passed allowing each senator an amount equal to 21 trips at 2 cents a mile, a mere matter of \$26,000. Mr. Lee O'Neil Brown remarked in this connection that since they were about to vote an amount to compensate farmers for losses, they should not forget themselves, in fact, "That charity should begin at home."

As another means of increasing revenue visiting committees were created. Special trains, with Pullmans attached, were hired and the committee, and

their friends and relatives, numbering 51 in all went joy riding on the state, at the expense of \$11,000, the law allows but seven members to be taken.

One trip of eight and one-half days cost \$5273. Twenty-six standing committees were appointed and numerous special committees, including one at whose head sat our local senator, who went into a one-day solemn session to determine the "Physiological effect of corn flour upon the human body" and to "determine what the minimun wage might be, if people were willing to accept it". For this immortal service Mr. Olson was paid the sum of \$150.

The versatile Mr. O'Hara received an inspiration. It would be a matter of high interest, instruction and excellent publicity, to organize a committee to determine "Why is Vice?" The state of Illinois is all agog to express its gratitude. At the expense of \$10,000 Mr. O'Hara can now report that vice exists and that it is practiced solely by the immoral and vicious.

In relating these matters, I am only scratching at the lid.

These expenditures have been made possible and have been authorized by a majority of senators.

In their midst sits A. J. Olson, always concuring, never disagreeing. Never once has he stood up in that body and a true representative of the people, who elected him, pointed the finger of accusation at his fellow gangsters and denounced them for their profligacy and inefficiency.

Olson has lacked the courage, he has lacked an appreciation of his duty; he has shown an ignorance. of what a trusteeship means; his sole interest has been to curry favor with the leaders, that he may feed the peanut politicians on whom he relies for future political existence.

He has advanced no constructive legislation.

If the people of this district want constructive laws, if the people demand that the expense of government be decreased, if the people of this district are interested in seeing their hard earned funds treated as a trust and not as a hog trough, they will on Sept. 13 eliminate from political life A. J. Olson and all others of his type.

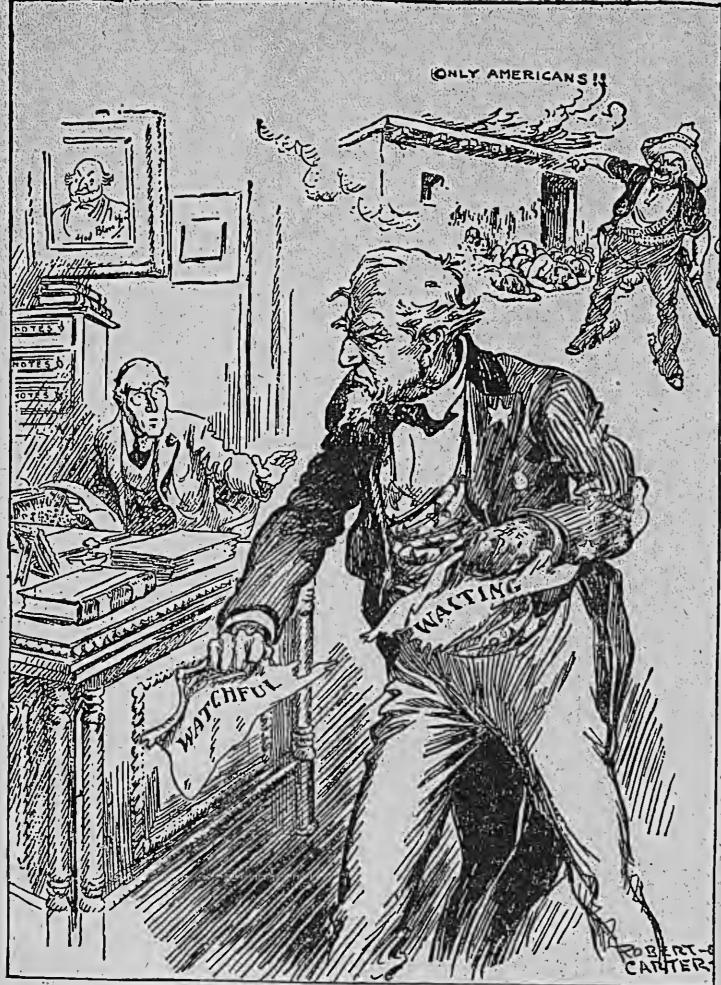

The farmers of this district are giving their support to Swift; they have a full realization of what they have suffered from the buffoon statesmanship of Olson.

Swift is a Lake county man. His record is open. He has not attacked the private life of his opponent. He has limited himself to the record of the present senator.

# HULL or LORIMERISM Which Does Illinois Want To Conduct Her Government?

On one side are the re-united Progressive Republicans under this able Statesman—Senator Morton D. Hull, now 49 years old, who for ten years has championed the people's welfare in the general assembly.

Opposing him now as always are—the "harmonized" Jackpot-Spoilsmen—men who aided and profited in the Lorimer scandal, the Allen Bill graft and other disgraces, now plan to control Illinois under a new-day Tammany.

Their candidate is Frank O. Lowden.

Frank L. Smith, the third factor in the field, has slight chances. A vote for him would only help Lowden to lessen the hosts who are rallying to Hull.

So between these two—Hull and Lowden—rests the fate of a new Illinois.
Their records are these:

When Hull was leading the valient "Band of Hope" in securing Direct Primary elections that ended "Packed Conventions"—

Lowden, se netional committeeman in 1912, was opposing direct presidential primaries against the will of the people.

When Senetor Hull was helping to pess Anti-Graft Laws, the State Civil Service Law, the Protective Insurance Acts, the Anti-Losn Shark Acts, the Child Labor Law, the Public Utility Commission Act and other constructive measures—

Lowden was conserting with Lorimer - Lundin-Thompson-Cannon and the "old guard" reactionaries. He was helping Cannon to maintain gag role in Congress. As National Committeemen in 1909 be gave his proxy to Lorimer, then under fire, to represent Illicois Republicans in the party management.

When Hult was working for the 10-Hour Labor Law to protect working women, for the Workman's Compensation Act, the Occupational Diresses Act and other measures to better the conditions of Labor—

Lowden fought like measures in Congress. As Director of the Pullman Company he denied his employes a living wage. Pullman porters are paid \$27.50 per month and are authorized to look to the public for tips to make up a living wage. (See the official report of the National Industrial Relations Committee and the report of the Illinois State Public Utilities Commission.)

Hull stands for the Hughes idea of government Merit Rule, Social and Industrial Justice, Vigorous and Economical Administration and Opposition to Special Privilege—Back of Hull sland the elements who seek no special fevers nor privileges in legislation or administration.

Lowden stands for the Cannon-Lundin-Lorimer-Thompson idea of government, of the "Pecria Combine" by the "Pecria Combine" and for the "Pecria Combine"—Back of Lowden stand the elements who seek special privileges in legislation and administration—those who engineered the Allen Bill legislation, the bi-partisan organization, the Jack-Pot organization, the Lorimer election in the General Assembly.

Lowden, Thompson and Lundin framed their deal on that May Sunday, 1915, at Eagle Lake, Wisconsin—they signed it at Brewers Mills, Ontario, Canada, in August, 1915, and they sealed and delivered it at Peoria, April, 1916. Here they foregathered in that famous all night conference with the kindred spirits who joined them in forming the "Peoria Combine." Thus, Thompson became National Committeeman and Lowden gained the support of the evil influences that have fastened their grasp on Chicago institutions and plan to capture the government of Illinois.

Hull is supported in every community by the forward-looking progressive men and women who have fought special privilege. His candidacy has gained amazing strength. His nomination seems certain if the rank and file turn out and vote. But do not neglect to work for Hull, talk for Hull, and vote for Hull and a New Illinois.

Send us your name and address and we'll tell you how you can help make his victory sure.

The Ukraine, ouce the first republic in eastern Europe, has been divided between her neighbors. Russia holds its largest part, with some 28,000,000 Ukrainians; the Russian nationallies call that country Malorosia or Little Russia, and the people Little Russiaus. Austria-Hungary holds a much smaller number, 3,500,000 in eastern Galicia, 400,000 in Bukowina and 500,000 in sub-Carpathiau districts of Hungary.

Governor Hughes' visit to Detroit opened the presidential campaign of 1818 and if we may forecast the events that are to follow by the omens of Monday we would prognosticate an intensely warm, vivid and humanly interesting period in the next few months.

Setting aside the auspices of meteorological conditions in this provision of the future—although they are approved by numerous professional augurs and by a host of commonalty as well—we base this prophecy on the characteristics of the candidate whose too brief stay with us has been enjoyed by all with whom he came into contact.

The misguided individuals who have been expecting Charles E. Hughes would prove to be a cold proposition and therefore easy to beat are in for a shock that will make them think they have been hit by an uninsulated trolley wire. There is nothing cold about Mr. Hughes, Dotroit has learned. He is about as intensely human a piece of humanity as ever captured the hearts of a crowd, and the more people in the United States he meets between now and November the more votes will be cast for him. As a campaigner he is a revelation. He likes his fellow beings, and they like him because they see he likes them.

And what his personality begins his remarkable powers of intellect and utterance finish. He drives his points home with tremendous force. What he says atlcks. There are thousands of Americans today who can retell every step in the arguments he made eight years sgo on the Bryan trust policy, yet in 1908 Mr. Hughes was not especially a prominent figure and there was no particular reason why his address more than others should have remained clearly in the memory except the gift of the man to send his own thoughts so deep into the brains of others. They are clear in his own mind first, undoubtedly. He knowe precisely what he wants to say because he has reasoned it out before he speaks it out. Probably that has something to do with the ease with which he conveys his meaning. But it is a very rare quality he possesses in his ability to master subjects so thoroughly as to make the most abstruse simple to himself and his hearers. It is a quality eminently desirable in a political candidate; it is infinitely more to be desired in the president of a great country like the United States.

Detroit's impression of Charles E. Hughes is all favorable. The thousands of people who have studied him at close range are convinced that if he is elected president next November he will be a great president, one of the greatest this nation has known, worthy to stand in history with George Washington and Abraham Lincoln, a custodian of the republic's fate to whom that fate may confidently be intrusted. If that conviction is shared by the people of other states whom he is still to meet, the outcome of his swing around the great American circle cannot fall to be propitious for him.—Detroit Free Press.

Vance McCormick says the Progressives are stampeding to Wilson, and it's a ten to one bet he wishes he could believe it.

The Democrats are finding out that pork comes home to root out their standing.

The men and women who prefer a man who does things to a man who writes notes about them will vote for Hughes. Government by correspondence takes too long to get anywhere, but government by deeds is always on the job.

Those who are concerned to know what Mr. Hughes would have done had he been in Mr. Wilson's place may rest assured he would not have done as Mr. Wilson has. And that is answer enough.

Mr. Hughes to not only going direct to the public, but the public is going direct to him. A genuine American fifty-fifty!

President Wilson's alarm clock is ringing at 5 o'clock these mornings. He can reach out of bed and turn it off the morning of March 5.

Postmaster General Burleson is too foxy a politician to adopt for his department the McAdoo rule forbidding. Treasury department employees participating in politics. Mr. Burleson realizes that postmasters are entitled to some exercise for the money.

There are no strings or mental reservations to the public pledges of administrative reform given by Charles In. Hughes. His record as governor of New York guarantees the fulfillment of every promise.

Democrats are now convinced that Charles Evans Hughes is a warm proposition.

It is gratifying, indeed, to find that Mr. Wilson still stands on the anfrage question where he stood at the beginning of his administration. He has changed on shout everything else.—Philadelphia Evening Ledger.

It strikes one that instead of wildly hustling for the State of Maine. Vanca McCormick might do better work by taking his wrecking crew to the West to repair the Democratic bridges that are heing dynamited by Justice Hughes.

According to the week's latest work of fletion, the Democratic Campuign Book, the wnge-earners of the country received during the Wilson Administration \$3,000,000,000 more than they received under Taft. And all it cost them to keep something in the dinner pall was \$6,000,000,000 more.

At the annual meeting of postmastere in Washington recently, the first assistant postmaster-general landed the postal savings system. That must have been a bitter pill for Postmaster-General Burleson, who est on the same platform with his assistant. When the postal savings bill was passed Mr. Burleson, then a Congressmen from Texas, voted against it. Every vote cast against it was cast by a Democrat. Not one Democratic Congressman voted for it. Yet President Wilson says the Republican party has not had a new idea in thirty years. Whose Idea was it?

It was the instinct of a lawyer for Highes to support his damning charges against Wilson by cailing Wilson's own secretary of state as a witness to prove them.

Mr. Hughes says there should be firm dealing in Mexican affairs. Mayhe so; but we have had enough of the firm of Wilson, Carranza & Co.

The impression is growing at the White House that Mr. Hugbes is deliberately unfriendly. Look out for neces.

If those Democratic notifiers put off their notifying much longer they may find Mr. Wilson in no mood to accept.

Before that Brandage had called upon his warm personal friend, the late Graeme Stewart, then active in the Merchants Club, and asked blm to have eight of the most premiment citizens of the city inspect the court house, and make recommendations, Graeme-Stewart secured the consent of John G. These business men inspected the court house and were immediately impressed with the necessity of an adequate structure. They recommended a bond issue for \$5,000,0000.

This building possesses two excepional records. In contrast to the federal building, which was ten years in construction, the country board reconvened in the new county building exnelly two years to the day that it had adjourned for the wrecking of the old building, and while there is not a skyscraper in the loop district on which liberal sums as "contractors" extras" have not been pald, the new county building was completed entirely within the appropriation and without scandal. What this means may be judged from the fact that for one loop building in Chiengo the owners have paid approximately \$700,000 in "extras." DECRYING INTERFERENCE, S
WE INTERFERED IN MEX-

The dealings of the Administration with Mexico constitute a confused chapter of blunders. We have not helped Mexico. She lles prostrate, impoverished, famine stricken, overwhelmed with the woos and outrages of intornecine strife, the helploss victim of a condition of anarchy which the coursa of the Admiaistration only eerved to promote. For ourselves, we have witnessed the murder of our citizons and the destruction of their property. We have made enemlos, not friends. Instead of commanding respect and deserving good will by sincority, firmpese, and consistency, we provoked misapprehension and doep reseatment. In the light of the conduct of the Admiuletration no one could understand its professions. Decrylag laterference, we interfered most. exasperatingly. We have not even kept out of actual confliet, and the soil of Mexico is stained with the blood of our, soldiers. We have resorted to physical invasion, only to retire without gaining the professed object. It is a record which canaot be examined without a profound sense of humiliation .-From Mr. Hughes' 'speech of acceptance ..

# INFORMATION BUREAU IS INSTALLED ON GROUNDS

Many visitors at the Illinois state fair grounds get mixed on directions, exhibits, train schedules, etc. The grounds are so extensive and the exhibits so varied that a stranger often feels lost for a moment by the greatness of the thing.

Feeling this, the members of the fillnols state fair board of agriculture have arranged for a free information bureau on the grounds. It will be open daily from the time the gates open until the closing hour. All questions relative to exhibits, train schedules, ears, in fact anything that may interest the thousands of fair visitors, will be answered cheerfully by the efficient attendants in charger. This will prove a very convenient feature of the state fair service.

READ THIS

Cut This Out and Take it With You to the Polls

The bullet which you will receive from the Judges of the Election will be a very long one with many names. Mark your ballet as shown below and you will not make a mistake.

The first heading on the Republican hallot will be, "For Governor" with Three names; the second heading will be "For Lieutenant Governor" with Seven names; the third heading will be "For Secretary of State" with Seven names; the fourth heading will be "For Auditor of Public Accounts" with Ten names. Mark only one of the ten names. In Lake county the name of HOMER J. TICE is number three in the list under the heading for "Auditor of Public Accounts." Make a cross in the square in front of number three us shown: Homer J. Tice.

# Don't Think A Modern Windmill Looks Like This

The same kind of ingenious, inventive ability that has perfected the automobile, flying machine and submarine has been at work on the windmill.

You would not think of buying an automobile with the transmission gears uncovered and exposed to dirt and water. Nor would you buy one which required that each bearing be oiled separately. We simply urge you to use the same good judgment in selecting a windmill.

There is ONE, but ONLY ONE, thoroly modern and up-to-date windmill.

You will find in it every feature which you know to be desirable in a windmill. It runs in the lightest wind, it is strong and durable, all working parts are inclosed and flooded with oil from the supply in the gear case. The oil supply needs replenishing only once a year. The brake and furling device are simple and effective.

A glance at this illustration will bring home to you very forcefully the difference between this modern wind motor and the out-of-date windmills being offered for sale. If you have a mill of another make it will pay you to replace it, on your old tower, with an Auto-Oiled Aermotor. If you have an Aermotor you can bring it up to date by using your old tower, wheel and vane and installing an auto oiled motor:

Our galvanized steel towers are up for date also. We well

Our galvanized steel towers are up-to-date also. We call them "EASY-TO-BUILD-UP," as they are made in 7-foot lengths and can be built up from the ground without the use of gin pole and heavy tackle. They are tremendously strong.

Progressive windmill dealers in every locality are taking up the sale of the Auto-Oiled Aerinotor. Ask them about it or write us direct for fuller information. Aermotor Co., 2500 West Twelfth St., Chicago, Ill.

\$14,397.25 in fees, fines and forfeitures collected and turned over to the proper authorities:

\$ 927.03 collected and paid into county treasury in moneys due the county from estates of paupers who had received county aid.

\$ 7,846.52 collected and paid into county treasury as interest due on public funds from former county treasurer.

\$ 7,530.89 inheritance tax fces which my office was instrumental in causing the former county treasurer to pay into the state treasury.

\$13,774.43 paid into the county treasury as back taxes from the estate of Nathaniel C. Sears and other estates, which such decendents had avoided paying during their life time.

\$14,595.34 paid into state treasury as back taxes from same estates.

If re-elected to the office of State's Attorney my policy in the future will he, as it has been in the past, to enforce the laws as I find them.

I respectfully solicit your support.

# How the Wilson Administration Has Penalized Patriotism

Having in viow the possibility of further aggression apon the territory of the United States from Mexico and the accessity for the proper protection of that frontier," President Wilson, on June 18, called out the mobile arms of the National Guard for federal

He did not call them out at their existing peace strength, but at war strength, which is practically double. Lackling, a system of reserves, the National Guard organizations immediately had to start a campaign of recruiting, to bring about the desired in-

crease la their numbers. Patriotic young citizens, under the urge of the cry, "Your country needs you," volunteered for service in gratifying aumbers. According to Senator Chamberlain, chairman of the Senate Committee on Military Affairs, the result is that about 135,000 citizen soldiers have been mustered into the federal service and are now on the Mexican border or in camp in their home states. There may be more, but tho administration refuses to make

known the exact figures. The movement is costing the public treasury many millions of dollars; it is costing the individual citizen soldiers many millions more. They went to the front helleving the cry, "Your country acoda you," for war service. They sacrificed advancement in their civil occupations, severed home ties, auffered, in thousands of instances, great financial loss. The loss patrictle, who did not believe the ery, or belleving, declined to make sacrifices,

falten at home on these lossos. The real purposes of the call are alowly developing. They are two in

First a patrel of the horder to do the work which President Wilson's friend, Carranza, finds it impossible to do. Because the recognized government in Mexico is too ineffective to keep its own citizons in check and prevent them murdering Americans on American soil, the American goverament undertakes the costly task of doing that work for them. The mursoil is another matter. Carranza may

go as far as he likes in that direction. Second, a purpose of the mobiliza-tion on the horder and in the camps is to train citizens to perform effective military service. The regular military establishment of the nation is manifestly too sma": for the actual military needs. To this extent the cry, "Your country needs you," was correct.

But these facts were not made clear when the call was lasned. The idea was promulgated that men were need ed for actual war service; not for military training. Deceit was prac-Opposing in the open legislatien for

universal military service, the administration by its acts has established what in essence is a system of compulsory military service. It is a system all the more vicious because it operates only against the patriotic, whereas a legalized universal training eystam equalizes the burden of milltery service among all men and all classes of men.

When in 1914, Europe plunged into the greatest war of all history, and conditions in Mexico grew intolerable. intelligent men realized the fact that it was incumbent on this nation to build up its tiny regular army and put its other military resourcee in condition for use. National safety demanded this. And yet, in December of that year, four months after the European war began, President Wilson went before Congress and declared that all agitation for military preparedness was bysterical; that we were ade-

quately prepared. After a while the administration changed its mind and professed to believe in the necessity for prepared. ness. First came an enactment to lacrease the regular army by 20,000. Only the 185,000 patriots who believed that their country needed them for national defense; only the men who are making the great sacrifices. The whole disgraceful story may he summed up in the phrase, the administration has penalized patriot-

# RACE EVENTS TO DRAW BIG CROWD

Horsemen Are Entering Animals for State Fair Speed. Contest.

## WINNERS TO GET BIG MONEY

Premiums Will Total \$85,000 and Spead Awards Amount to \$25,-000-Many Races Are Scheduled.

Enthusiasni will have an oullet again this year at the state fale grounds in one of the fluest herse ruclag programs thus far arranged. Every day beginning Monday, September 18, and continuing for five days the bugle will call and a field of fast animals will take their places for the getaway amid the blurg of bands.

Especial interest attaches to the horse racing events this fall because of the renewal; of the sport this summer at Chicago when Dodge, a bay colt owned by Weber & Ward, won the \$10,000 derby and set the fans at Hawthorae aftre with appreciation.

, George H. Madden, superlatendent of speed, has spent'a great deal of time getting matters in readiness for the speed events and announces a list of races which will satisfy everybody in the light of past experience.

An Idea of the inducements offered to horseoien is influented, by the fact that a total of \$25,000 in purses will be awarded to winners.

Special purses are for \$1,000 in the pacing and trutting events. Big money is also offered for winners in the runnlog races, two of which will be staged every day.

Features will be the entry of threeyear-olds or under ing trotting ruces scheduled for Wednesday still Thursday. There will also be a free for all trotting race on Friday, the last day of the races.

The racing program will include the following events: Hotel Stake, one mile, three years, old and upward; Selling race, three-fourths mile, all ages Citizens' , purse, | nevca-eighths | mile, three-year-old and upward; five-eightlis mile, all ages, flvo pounds below scale; Illinels Derby, one and one-eighth mile; Selling race, three-fourths mile, all ages; Merchanta' atake, one mile, three years old and upward; Selling race, seven-eighths mile; Conselution, tive-eighths mile, entrance feet for horses that have started at meeting horses that have started at meeting and have not fluished first or second; Consolution, three-fourths mile, en-

Old Soldiers Will' Be the Guests of State Fair : Board.

The mobilization of state: troops throughout the land has spurred every eltizen to realize the value of the soldler and to in hetter appreclation of those who have fought in the hour of the Nation's need, This will give added impetus to the celebration of Old Soldiers' day at the state fair. Wednesday, September 20.

Here regimental reunions will take place, when old comrades of '61 will shake hands, perlups for the last time for many of them, for the runks are growing thinner every year. And with the older men will come the crop of younger heroes who offered themselves to the antion in 1898.

Together these soldiers will enjoy a discussion and advecacy of Republican policies, national and state. He gressman L. 12. # THE NATION IS SHOCKING.

LY UNPREPAREO. It is apparent that we are shockingly unprepared. There is no room for controversy on this point since the object les sou on the Mexican border. All nur avulinble regular troops (less, I believe, than 40,000) are there or lu Mexico, and us these. have been deemed insufficient the eatire National Guard has been ordered nut; that la, we are summoning practically all our movuhle military forces in order to present hundlt Incur sions. In view of the warnings of the past three years, it is nexcusable that we should find airselves in this plight. For our fulthful guardamen, who with a tine parriotism responded to this cull and are bearing this ourden, 1. have nothing that ornise: But laythink it: little. short of absurd that we should he compelled to call men from helr shups, their factories, their offices and their professions for such a purpose. This, however is not ull. The units of the Narional Guard were at peace strength, which was only about one-half the required strength It was necessary to bring in recruits, for the most part raw, and untrained. Only a small percentage of the regiments reerulted up to war strength will have had even a year's traluing in the National Guard, which at the muximum means one hundred hours of military, drill, and, on the average, means much less. Men fresh from their penceful employments and physically apprepared have been hurrled to the horder for actual service. They were without equipment; without proper necessary supplies; sultable conditions of transportation were not provided. Mea with dependent familles were sent; and conditions which should have been well known were discovered after the event. And yet the exigency, comparatively speaking, was not a very grave one. It involved nothing that

# Why Col. Smith's Latest Attempt to Secure a Public Job Will Fail

Col. Frank L. Smith-"The Great Runner"-is making another feverish effort against insurmountable obstacles. People are now recognizing the vainness and weakness of this attempt. Ask the men you know about Smith and his activities. You will hear that for years he has been engaged in unsuccessful running for office-twice for Lieutenant Governor, for Chairman of the State Central Committee, for Secretary of the State Central Committee, for State Treasurer and for National Committeeman. In all he was supported by the Lorimer-Lowden-Thompson faction:

The men who know will tell you that through all these years of job hunting he has captured but three honors. First, he was made a "Colonel" on the staff of Governor Tanner, purely a civilian title. Second; he managed the campaign to Illinois against Roosevelt in behalf of Taft. Progressives can hardly forgive that. Neither can Tatt. Third, he became collector of Internal Revenue for the Peorla District -certainly not an executive position. (Privately, he helped to organize the Lorimer Bank, of which he was still a shareholder when it falled:)

And now he offers this meager experience to the people of Illinois, asking them to elect him Governor. Does such experience equip a man for the governor-ship? Compare this record with Senator Hull's 20year fight for social betterment and his 10-year officinl record—energetic, progressive, efficient. All know just what Hull has accomplished—it is a matter of public record and public pride.

Hull has the support of forward-looking Republicans. The Progressive Committee of Cook County has endorsed him: The rank and file of down State Progressives prefer him to the two civilian "Colonela," the hazarda and dangers of whose military duties related chiefly to the perils of the banquet board. The famous "Band of Hope," of which Hull was the courageous leader in their untiring efforts for new day legislation, cast their support in each county to Hull. All over the state good government organizations are demanding Hull

Hull will carry Cook County, for Smith has been out campaigning against Chicago. Because he opposes Chicago, Chicagoans won't support him and so Smith's former backers—the Lorimer-Thompson-Lundin crowd—have swung to Lowden, who seems stronger than Smith. Smith's strong-hold is Livingston County—his home of which he has been the political boss for years. His sentiments are in harmony with those of the present Lorimer Lowden Lundin Thompson faction. He opposed primary legislation, civil service legislation, the reorganization and rehabilitation of the state in the talking of the amployee in the state. attutions, the taking of the employes in the state institutions out of the influence of politics and placing them upon a merit basis, and other matters of

forward-looking legislation and administration. In pravious years Livingston County has lived up with the Lorimer Lowden clique—but now it has en-

In the last two years Cook County Republican ienders have repudlated him and down State people are wondering what be represents.

Some people opposed to Lowden and his supporters may wish to vote for Smith to show their disapproval of Lorimerism and Thompsonitis. But a vote for Smith will be wasted.

Throughout the State the general favor runs strongly toward Hull. Talk to all you meet—you will find that those who fear the slush fund spollsmen the Bathroom legislators and the Jack Pot crowd-see in Hull a fighter for the people's Interests. They have his platform down in writing. He alone has committed himself to a definite, tangible program. Others evade, generalize, repeat old ballyhoos,

Illinois needs you in this crisis. All the reactionary forces are working tooth and nail against Hull. They want to continue the easy game of exploiting the public. Hull will put an end to it.

Every indication points toward Hull as the winner on Septer ber 13th. But your moral and active support are needed at once to combat the evils of the old; ingrown system, Time is short. Do your duty before it is too late.
